Border Watch Films Wins Award in IndieFEST Film Awards

TENNESSEE, November 24, 2014 – Border Watch Films has won a prestigious Award of Merit from the IndieFEST Film Awards. The award was given for the exciting science documentary, “Refracted Glory,” which explores the many marvels of hummingbirds. “Refracted Glory” features exceptional slow-motion footage of hummingbirds in flight, a thrilling original score and captivating interviews with leading experts.

“We are very thankful for this Award of Merit from the IndieFEST,” responded the film’s producer, Benjamin Owen, “and give God the glory; as we did in this film.” As producer and director, Owen spent nearly two years studying the topic and worked with other industry professionals to craft a unique presentation.

“Hummingbirds are amazing creatures,” says Owen; “and in every aspect, they point to our Creator. Hummingbirds testify to the truth of the Bible and defy evolution.” Visit the website to learn about the scientists featured in “Refracted Glory” and to watch previews:
